LG Hospitality TV

MAY 2011, EU / CIS

WHY LG

LG's reliable and innovative solutions satisfy every business sectors to be able to maximize your business. For this, all LG's business solutions have been designed to give maximum impact as well as practical benefits. Easy to control, practical features fit in wherever LG Business Solutions are in need. New era of business solutions are led by LG

Reliability as LG

Innovating and instilling customer satisfaction with a goal of developing long-term relations, while respecting our assertive, positive and dynamic global business policy. That is uppermost in the minds of LG's more than 80,000 employees around the globe. Our people working in the Commercial Display market, where LG has been a key operator for a number of years, are obviously in the same spirit.

Technology as LG

LG electronics, a leading supplier of electronics technology excels in offering comprehensive and indispensable solutions to suit your needs. With our expertise in research and development for the hospitality industry, LG prides itself in providing access to some of the most advanced and flexible products and technologies.

Environmental Vision

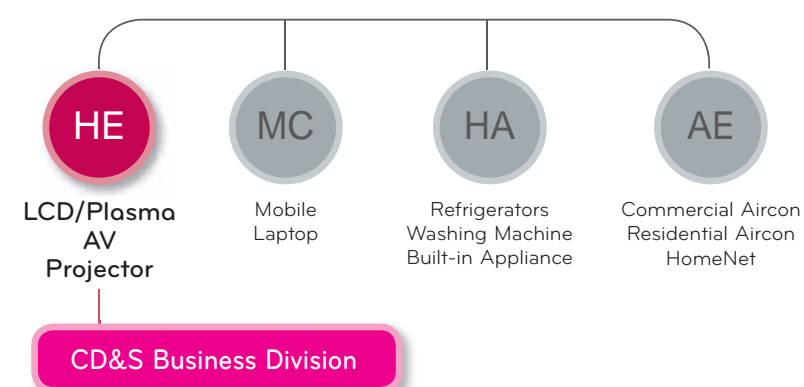

LG Electronic's vision is to grow into a leading environment conscious company by working to protect the global environment and creating products with environmentally friendly features. We first announced our environmental policies in 1994.

We have also developed activities to minimize environmental burdens associated with our operations. LG Electronics' environmental strategies are being implemented across the entire value chain. We are especially focused on issues related to green product features, climate change, and recycling.

Commitment to B2B

We constantly strive to find new ways to leverage our core competencies in the fields of displays and digital peripherals to create innovative, original and reliable solutions to the problematic created by rapidly evolving technical demands in the various B-to-B horizontal markets. With a team of design and engineering experts who have a thorough knowledge of both B-to-C and B-to-B solutions, LG is well positioned to provide businesses of all kinds with reliable and innovative solutions. Knowing our products inside and out makes LG the ideal provider of service and support as well as refinements to technology.

Smart Energy Saving / Plus / Super

The Backlight control function controls the brightness of the TV, while the Screen off function lets you switch off the screen while keeping the sound or music alive. Stand by Mode 0 function sets your TV to a power saving mode where "zero" electricity is used.

RoHS

For human health and environmental matter, LG Hospitality TVs have basically complied with RoHS.

Green Certification

ECO Flower- After meeting rigorous environmental requirements of the European Union, LG TVs received EU Eco-label the "Flower" to become one of the few advanced TV makers with the label.

PREMIER DESIGN & TECHNOLOGY

PERFECT HARMONY OF SOPHISTICATED DESIGN AND INSIGHTFUL TECHNOLOGY, LG HOSPITALITY TV

LG Hospitality TVs offer refined design to enrich your hotel, hospital and nursing home environment. In addition, amazing experience is provided by the state of the art technology beautifully hidden in the stylish design. In the future of LG Hospitality TV, Simple touch of remote control button will introduce a whole new world of watching TV together with internet surfing, room temperature and light control, operation of curtain, shopping, check-out, etc. Stylish Design and Smart Technology present Extraordinary Experience.

Pro:Centric

Interactive Guestroom Experience!
LG's new Pro:centric solution allows hoteliers to customize the in-room experience.

Pro:Idiom™

The Pro:Idiom system is one of the leading DRM systems and helps eliminate the possibility of customers tampering with or removing needed components

Interactivity

LG Hospitality TV allows complete interactivity using the Set-Top-box and its remote controller for Real time & near Video On Demand service for hoteliers.

Hotel Mode

LG provides hotel dedicated feature, called Hotel Mode to manage TV setting consistently.

USB Cloning & Player

Guests can connect devices such as MP3 players and digital cameras to the television with ease. USB Cloning allows you to easily import the settings of one TV to all other units.

LG INTERACTIVE HOSPITALITY TV SOLUTION

Pro:Centric™

BUILT-IN STB FEATURE AND AP CARD

You no longer need to worry about extra cables dangling everywhere. LG Interactive Hospitality TV adopts embedded STB feature, eliminating cables while also shortening booting time. Moreover, with a built-in Access Point (optional) you can provide guests with increasingly essential wireless internet access. This provides a great TCO benefit to the hotelier. Additional cost for the purchase of AP and STB as well as the labor cost for the installation is reduced.

IP OVER COAX

With LG Hospitality TV, you don't need to install Ethernet cable to get IP-based interactive TV service. You can provide guests with interactive TV contents using existing coaxial line infrastructure seamlessly as our Hospitality TV comes with C-Link and HPNA technologies. (optional)

Distribuito in Italia da AVstore

AVstore è un marchio di Voome Networks S.r.l.

Pro:Centric PLATFORM

Pro:Centric is LG's unique and dedicated hotel data broadcasting platform for various service applications. With Pro:Centric's TV platforms you can customize the in-room experience. Pro:Centric provides an easy way to interface with interactive program guides and internet data feeds, as well as applications designed to connect guests to hotel services such as room service menus and spa reservation.

REMOTE MANAGEMENT THROUGH Pro:Centric SERVER

Human resource consumption in Head-end management is always an issue for hoteliers, but with Hospitality TV, you can remotely manage cloning and channel mapping for TVs in guest rooms via your own private server.

Pro:Idiom

The Pro:Idiom's high-quality security unlocks access to premium content availability to help assure rapid, broad deployment of HDTV and other high value digital content. With one of the leading DRM solution, you can eliminate the possibility of customers tampering with or removing needed components

"You dream it, we design it!"

Have you always dreamed of a solution to guest room TV services that provides quality of in-room services and superior guest satisfaction? LG Hospitality TV can customize solution as per your exact needs.

LG HOSPITALITY TV

EXCLUSIVE FEATURES

Pro:Centric | Pro:Idiom™ | Set Top Box Embedded | In-Room Wi-Fi | IP Over Coax. | Hybrid Streaming | Remote Manager

Pro:Centric INTERACTIVE GUEST ROOM EXPERIENCE

LG's Pro:Centric solution allows hoteliers to customize the in-room experience. Pro:Centric provides an easy way to interface with interactive program guides and internet data feeds, as well as applications designed to connect guests to hotel services such as room service menus and spa services.

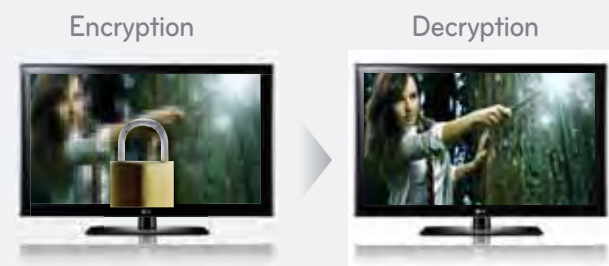

UNIQUE & DEDICATED HOTEL DATA BROADCASTING PLATFORM

Pro:Centric is LG's unique & dedicated hotel data broadcasting platform (GEM & Flash-Lite based Application). Various service applications are available according to the service provider.

Pro:Idiom™ DIGITAL RIGHTS MANAGEMENT SYSTEM

The Pro:Idiom system's high-quality security unlocks access to premium content availability to help assure rapid, broad deployment of HDTV and other high value digital content. Pro:Idiom has been designed specifically for industries that use premium HDTV content from cable, satellite or video on demand (VOD) services and as such, could result in lower costs, and reduced maintenance. This system is one of the leading DRM systems embraced by content providers for both of these key programming sources. By using this embedded approach, security is provided and helps eliminate the possibility of customers tampering with or removing needed components.

Set Top Box Embedded

You no longer need to worry about extra cables dangling everywhere. LG interactive TV(full) adopts embedded STB feature, eliminating cables while also shortening booting time. With this feature, hoteliers can further save costs for purchasing external STB as well.

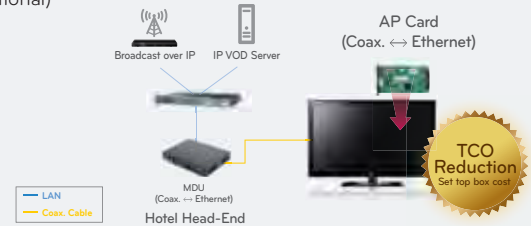

In-Room Wi-Fi

With a built-in Access Point that is an optional feature, hoteliers can provide guests with increasingly essential wireless internet access.

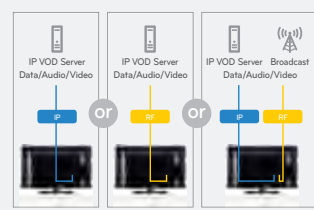

IP Over Coax.

With LG Interactive TV(Full), you don't need to install Ethernet cable to get IP-based Interactive TV service. You can provide guests with Interactive TV contents using existing coaxial line infrastructure seamlessly as LG Interactive TV(Full) comes with C-Link technologies. (optional)

Hybrid Streaming

Now you can choose between RF and IP connection. And you can use the streaming service connecting both RF & IP. Now it can be enjoyed in all environments. (Use without MPI AP CARD)

Remote Manager

Human resource consumption in head end management is always an issue for hoteliers, but with Pro:Centric server purchase you can remotely manage cloning and channel mapping for TVs in guest rooms. All this can be done without having to visit all guest rooms.

PROFESSIONAL FEATURES

Hotel Mode | Anti-Theft System | Welcome Screen | USB Cloning | MPEG4 HDTV Reception

Hotel Mode

Our hotel dedicated feature, Hotel Mode, enables you to effectively manage your TV settings across the entire hotel.

- **Public Display Mode** The option "Yes" indicates that the hotel mode is active. The option "No" leaves sub-menu inactive.
- **Start Channel** When you select "Yes" you can set a designated start channel. Channel type can be selected "TV, DTV, CTV, CDTV" Major, Minor represent Channel No. to be inserted.
- **Minimum Volume, Maximum Volume** Set the maximum and minimum volume as you wish. It can be ranged from 0 to 100.
- **Start Volume** The option "Yes" indicates that the start volume can be set.
- **Power management** TV automatically turns off if there is no command. The limit time can be selected from 1 to 7 hours.
- **Key Management** Select "0" : respond to all commands from remote controller. Select "1" : prevent TV from responding to "menu" key. Select "4" : prevent TV from responding to "menu" key on the remote as well as on the TV panel.

Anti-Theft System

• **Kensington Lock**
The Anti-theft Lock provides foolproof security to prevent the TVs from being stolen.

• **RCU Battery Lock**
To prevent the removal of the batteries from the remote control unit(RCU), our covers are screwed into the back of the remote. That means the cover can only be removed with the help of a special screwdriver.

Welcome Screen

Leave welcome screen for your guests on their TV screens. Sometimes little things make a big difference.

USB Cloning

TV-Link Loader / USB TV-Link loader make it easy to clone all hotel mode setting across entire hotel rooms. This ensures uniformity among TV sets and reduces installation time.

MPEG4 HDTV Reception

LG Hospitality TV allows you to receive high definition broadcast contents via built-in tuners giving exceptional picture quality.

This advanced system delivers more HD channels in the same frequency bandwidth. LG's advanced digital video compression technology, MPEG-4 H.264 enhances performance and simplicity for venues delivering high-definition satellite programming.

LG HOSPITALITY TV

PROFESSIONAL FEATURES

Multi IR Code(Bed1/Bed2 Function) | Variable Speaker Out | Swivel Stand | Simple Remote Controller | Low Battery Detection | Membrane Remote Controller | Invisible Clock

Multi IR Code(Bed1/Bed2 Function)

You can exclusively control your designated TV with the LG Multi IR Remote Control Unit. This is a convenient feature in circumstances where several TVs are installed in the same space, such as hospitals or nursing homes.

Variable Speaker Out

By adding an additional speaker, guests can immerse themselves in pristine sound wherever they choose. Even if they're in the bathroom, guests can hear and control the TV sound as if it were next to them. Perfect for music.

Swivel Stand

The swivel stand allows guests to watch TV virtually at any direction.

Simple Remote Controller

LG Hospitality TV's simplified remote controller makes controlling multiple functions easier than ever. All in one remote controller greatly enhances your convenience; RCU Battery Lock, Low Battery Detection and Multi IR Code.

LCA-RCU01

- Multi IR(Bed 1-9)
- Low Battery Detection
- Battery Lock

LCA-RCU02

- Multi IR(Bed 1-4)
- Easy to clean Membrane Remote Controller

Low Battery Detection(Only for LCA-RCU01)

This simple but smart remote controller detects low battery below a certain voltage and sends a warning message to the TV screen. It means you can make sure that the remote is fully charged before a complaint is raised.

Membrane Remote Controller(Only for LCA-RCU02)

LG's Membrane Remote Controller is highly convenient to operate while the Membrane material makes it easy to remove any stains. In addition, up to 4 TVs can be controlled with a single Remote Controller.

Invisible Clock

The integrated LED clock has an array of alarm functions that are useful for guests, yet introduces cost savings for hoteliers - no need to supply a separate alarm clock.

ECO-TECHNOLOGY

Smart Energy Saving / Plus / Super | RoHS | Intelligent Sensor | Green Certification | Fire Retardant

Smart Energy Saving / Plus / Super

The Backlight control function controls the brightness of the TV, while the Screen off function lets you switch off the screen while keeping the sound or music alive.

Intelligent Sensor

When the lighting condition in the room changes, Intelligent Sensor II adjusts the brightness of the picture on screen to let you fully experience the originality of the picture.

Green Certification

After meeting rigorous environmental requirements of the European Union, LG TVs received EU Eco-label the "Flower" to become one of the few advanced TV makers with the label.

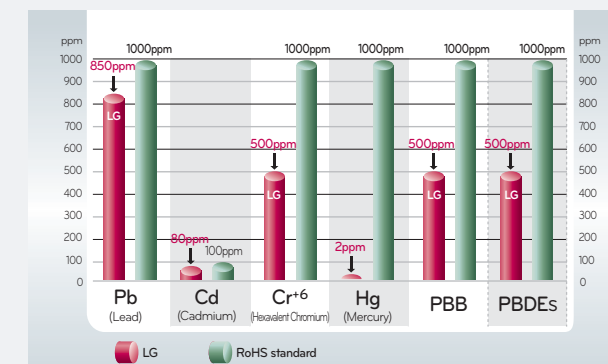

RoHS

For human health and environmental matter, LG Hotel TVs have basically complied with RoHS.

RoHS compliant

LG restricts the use of 6 hazardous substances such as lead, mercury and so on. This protects human health and preserve surroundings.

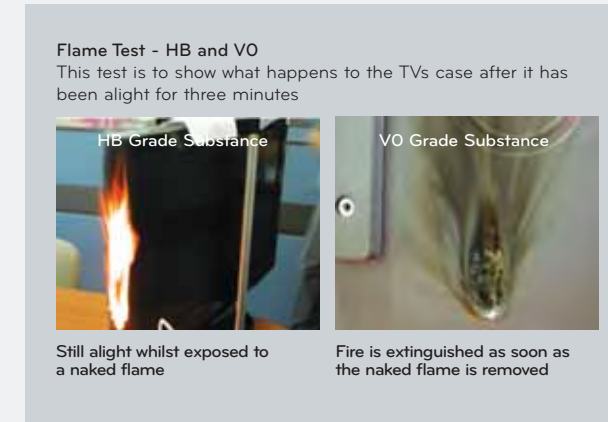

*RoHS : Restriction Of Hazardous Substances

Fire Retardant

LG Hospitality TVs have a special housing of eco-friendly, flame-retardant materials. We use UL-V0, the highest rated substance, in our TVs to ensure that fire risk is minimised. All our TVs are fully compliant with IEC recommendation - UL Qualification - so helping you stay safe and protecting your hotel from fire.

LG HOSPITALITY TV

ENTERTAINMENT FEATURES

LED | FULL HD 1080P | Real Cinema | RJP(Remote Jack Pack) | Dual XD Engine | HD DivX

LED

Brilliant edge LED backlighting display delivers crystal-clear images, true blacks, and the most vivid, life-like colors on a slim screen.

RJP(Remote Jack Pack)

Your guests may wish to work on their own portable devices. The plug and play function of the Remote Jack Pack enables them to view their media on the hospitality TV screen easily and whenever they wish.

FULL HD 1080P

Experience beautiful 1920-by-1080 Full HD resolution images on LG Plasma TVs.

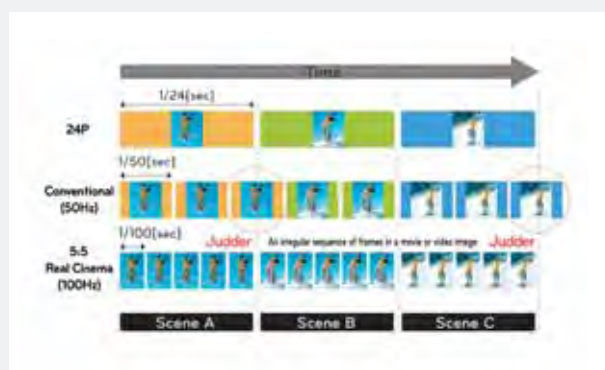

Dual XD Engine(Accurate Color)

LG's Dual XD Engine brings you magnificent picture quality through outstanding color accuracy, visual contrast, visibility in dark area, and sharpness.

Real Cinema

The LG's Hospitality TV provides your guests with the ability to watch movies in their original 24-frames-per-second format - so they can see them the way they were meant to be seen.

HD DivX

Let LG's innovative HD DivX technology bring the movies home to you. Enjoy various types of moving pictures from the internet through HD DivX.

ENTERTAINMENT FEATURES

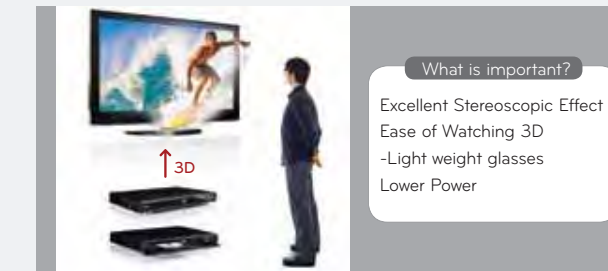

3DTV (Only LW551C) | Infinite SOUND | USB Photo, Music and Video | AV Mode | Clear Voice II | USB 2.0(JPEG/MP3)

3DTV (Only LW551C)

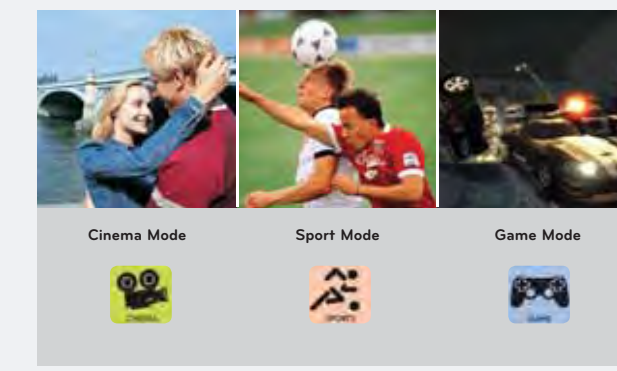

LG 3DTV is Different in Performance

With Super Picture Quality & Cinema3D technology and Invisible Speaker & Clear Voice technology. Top 3D picture Quality and Sound is provided. 3D TV is three-dimensional TV watched by wearing polarized 3D glass which has Passive & Active type. (Three are two technologies used in 3D, Passive & Active) Between the two types, Passive 3DTV has far more outstanding definition plus convenient use of 3D glass and high energy efficiency (Lower TCO), being more suitable to business use.

AV Mode

Optimize picture settings based on content type - Cinema, Sports or Games. The AV Mode allows you to customize the picture and sound quality to enhance your viewing experience accordingly.

Infinite SOUND

To see it real is to hear it real. LG's Infinite Sound, which is tuned by the legendary audio expert Mr. Mark Levinson, upgrades your TV experience with ultimate surround sound.

Clear Voice II

Clear Voice II automatically enhances the sound of human voice when background noise swells.

USB Photo, Music and Video

Guests can see the photo and listen to the music which are keeping their USB. So, they can enjoy more during their stay.

USB 2.0(JPEG/MP3)

USB 2.0, which is 40 times faster than USB 1.1, offers faster and easier access to your multimedia.

PRODUCT LINE UP / EU

INTERACTIVE FULL

LG Interactive TV(Full) is a solution-oriented hospitality TV that provides hoteliers new tools for great cost savings as well as enhance the guest experiences through two-way communication between the TV and the head-end system, unlike existing televisions. There has never been a solution like this before - it's only from LG. With the emergence of IP-based TV technology, more and more hotels are providing their guests with interactive contents. But both hotels and Internet service providers are bothered with the cost and time involved in constructing and installing an IP network that can support higher quality data transmission. LG set out to address this and other difficulties when it invented LG Interactive TV(Full). LG Interactive TV(Full) allows hoteliers provide their guests with IP based interactive TV services using existing coaxial line infrastructure. It also comes with many other beneficial features such as embedded set-top box and AP card for in-room Wi-Fi.

INTERACTIVE READY

LG INTERACTIVE TV(Ready) has been designed for hoteliers who are seeking to provide their guests with value added in-room services at minimum cost. With Pro:Centric solution-enabled LG Interactive TVs, hotels can greet their guests with a welcome message. It can also provide guests with vital hotel information such as local tourist attractions and facility information far more easily. Contents can be updated through a web-based editor and it also allows hotels to remotely manage cloning and channel mapping via a remote server. For hotels without their own server, LG offers Pro:Centric server which has been optimized for hotel users. Take a closer look at LG Hospitality TV Interactive Ready.
